

Home Language Survey

In accordance with federal and state requirements, Baltimore City Public Schools (City Schools) conducts the Home Language Survey of all students to assist in identifying language minority students. The Home Language Survey provides a broad indicator of which students may require further assessment to determine eligibility for English for Speakers of Other Languages (ESOL) services.

City Schools will

- Enter into a database the primary and home languages, including English, reported on this form
- File the original completed form in each student's cumulative record
