

Our new playground design

## Help Restore the Playground at the City Neighbors Sefton Ave. Campus

When City Neighbors Hamilton and City Neighbors High School opened in 2009, we wasted little time in planning and installing a playspace for our students and our community. Unfortunately, the original wooden playground structure needs to be replaced. We are excited to unveil our new playground design which was developed by a group of students during a long-term study project. This summer, City Neighbors Hamilton and City Neighbors High School will partner to replace the play structure using this new design. A new playground requires significant funding. City Neighbors has committed to raising \$50,000 to support the playground restoration.

**We are asking for your support by:**

- **Making a donation to our playground project. Be sure to note "Playground" on your donation.**
- **Asking family, friends, and neighbors to join in supporting a new, safe, student-designed play structure for our community.**

**Thank you for your generosity and support!**
